

NEW CONNECTION FEES - WATER

New or upsized connections to the Silver Lake Water & Sewer District's (District) system are assessed a General Facility Charge and an installation and permit fee. General Capital Facility Charges pay for capital improvements in the District. New water General Facility Charges are assessed per meter size or by the number of dwelling units as adopted by Resolution No. 651.

Customers may provide the District with a building permit issued prior to August 14, 2010, to be assessed the previous General Facility Charge.

New or upsized water connections may also be required to pay developer reimbursements, system development fees, ULID assessments, or other fees depending on the property location.

For more information about new connection charges and fees, please contact the District at 425.337.3647.

New Water Connection Fees				
Meter Size / Customer Class	Factor Ratio	General Facility Charge	Install Permit	Total (Per Meter)
