

## WATER RATES

The Silver Lake Water & Sewer District (District) charges a base monthly rate based on meter size and a consumption rate for each water unit used. For most customers, the water base rate is \$7.30 per month. The regular water rate is \$1.60 per unit. The summer seasonal water rate is \$2.05. The four summer seasonal months are provided in the rate table below. The City of Everett directly or indirectly provides all of the water purchased by the District to serve our customers.

The District's current water rates will go into effect May 1, 2011 for customers billed in even months and June 1, 2011 for customers in odd months. Only the City of Everett's 2011 water rate increase of \$.05 per unit was passed on to customers. The four summer months for each billing cycle are provided in the table below.

The Table below outlines the current water rates by meter size. A unit of water equals 100 cubic feet of water or 748.50 gallons of water.
