

SEWER RATES

The Silver Lake Water & Sewer District (District) charges a monthly flat sewer rate for its residential customers and a metered (based on water usage) sewer rate for commercial and industrial customers. Most residential customers are billed on a bi-monthly basis and most commercial customers are billed monthly. The City of Everett provides sewer treatment services for customers within the Everett Basin. The Alderwood Water and Wastewater District provides sewer treatment services, via King County Metro, for customers within the Alderwood Basin.

The sewer rates are for the two sewer basins within the District. The rates for the two basins in the table below are effective June 1, 2010. The sewer rate increase for customers in the Everett Basin is approximately 3%, plus a pass through charge of \$1.30, representing the City of Everett's 2010 increase.

The sewer rate increase for customers in the Alderwood Basin is approximately 3%, plus a pass through charge of \$.44, representing the Alderwood Water and Wastewater District 2010 sewer rate increase.
