

WATER RATES

The Silver Lake Water & Sewer District (District) charges a base monthly rate based on meter size and a consumption rate of \$1.55 per unit of water. For most customers, the water base rate is \$7.30 per month. The District purchases most of its water, indirectly from the City of Everett, via the Clearview Water Supply Agency. The District also purchases a smaller amount of water directly from the City of Everett from two Westside meters.

The District's current water rates went into effect starting June 1, 2010. The 2010 water rate increase was comprised of two components. The first was a District 3% increase to the monthly water base rate (\$.20 per month) and per water unit (\$.04 per water unit). The second was a pass through of the net increase by the City of Everett and Clearview Water Supply Agency's 2010 water rate increases of \$.02 per water unit.

The Table below outlines the current water rates by meter size. A unit of water equals 100 cubic feet of water or 748.50 gallons of water.
