

APPLICATION FOR ACCOUNT STATUS CHANGE

Date:	Service Address:
--------------	-------------------------

Name:	Account Number:
--------------	------------------------

Resolution 617 provides customers with the ability to terminate or temporarily disconnect their water and/or sewer service from the District system. Please carefully read the conditions for each status and check the box for the appropriate service status you are requesting. Account balances must be paid in full. The District may either enforce service disconnection or property lien to secure payment.

Please Check Service Status Requested

Temporary Disconnect of Service
 Your water and/or sewer service will be disconnected from the main service line for a period not to exceed 365 days from the above effective date. During this time, your account will be billed the base monthly rate. Accounts must be paid in full prior to reconnection. The cost of the meter removal and re-installation will be billed at the adopted rates.

Terminate Service
 Your water and/or sewer service will be disconnected permanently from the District's system and your account terminated. Terminated accounts will be billed through their termination date and there is a \$35.00 final bill fee. If you require future water or sewer service, you must fill out an application for new service and pay the adopted new connection fees.

I understand that by signing this form I am agreeing to the provisions provided by Resolution 617 to either Temporary Disconnect or Terminate my water and/or Sewer service. I further understand that if I request my service connection be terminated, that the water meter and sewer connection will be removed from the main line and any future connection will require me to pay any adopted new connection fees and charges.
