This list is provided by Silver Lake Water & Sewer District as a convenience to our customers, and is not a recommendation to hire specific BATs. These testers have requested their company names appear on our list and have met certain criterion required by SLWSD. This list does not include *all* certified BATs. If you wish to hire a company whose name does not appear here, you must ensure that they hold a current Washington State Backflow Assembly Tester Validation Card and have current calibration for their test instrument (within the last 12 months.)

**NOTICE:** Silver Lake Water & Sewer District makes no representation regarding the abilities or quality of service of the testers listed. Silver Lake Water & Sewer District assumes no responsibility for the actions or performance of these testers.

For a complete list of testers please visit <http://www.wacertservices.org>.
