

NEW SEWER CONNECTION FEES

AWWD SEWER BASIN – Effective January 1, 2023

New or upsized connections to the Silver Lake Water & Sewer District’s (District) system are assessed a new connection charge to pay for capital improvements. These new connection charges are assessed per meter size or number of dwelling units as adopted by Resolution No. 802.

Customer can apply for a new or upsized sewer connection by submitting a new permit application, which can be found at: <https://www.slwsd.com/forms.html>.

New or upsized sewer connections may also be required to pay developer reimbursements, system development fees, ULID assessments, or other fees depending on the property location.

In addition to the Silver Lake Water & Sewer District’s new connection charges and fees, all new sewer connections in the Alderwood Sewer Basin must include a completed King County Metro Capacity form and pay the Alderwood Water and Wastewater District (AWWD) General Facility Charge before the District can issue a sewer permit. The AWWD Connection Fees, provided on the Table below, are for residential connections and are subject to change without notice. **The new General Facility Charges for the AWWD Sewer Basin become effective January 1, 2023.**

King County Metro will bill property owners directly for their capacity charge.
