

Calendar from your water provider.

Use water wisely.

YARD WATERING CALENDAR 2026

ONLY WATER EVERY THREE DAYS.

00-15 16-32 33-99

Use the last two digits of your house number to determine your days to water.

Leaks can be a major source of water loss, inside and outside your house.

For example, a broken sprinkler head can waste 25,000 gallons of water in six months.

Look for unexplained puddles or wet spots in your yard. This could be a sign of a leak.

Regularly inspect outdoor faucets and pipes for signs of wear or damage.

Make sure in-ground sprinklers weren't damaged or broken during the winter months.

Test your garden hose for leaks, especially at connection points.

Replace hose washers, tighten nuts on hose bibb, or apply pipe tape to ensure a tight seal.
